

April 7, 2010

Dear Valued VehiCare® Customer:

Clarke Power Services Inc., headquartered in Cincinnati Ohio, has announced the acquisition of the VehiCare service locations in Cincinnati OH, Indianapolis IN, and Memphis TN effective April 9th, 2010.

VehiCare® will be operated as a business unit within the Clarke organization and continue to offer you the same excellent level of service you've experienced in conjunction with maintaining your vehicles. Aside from the shop location in your market, all other aspects of service (including pricing levels and the VehiCare® brand) will remain the same.

Clarke Power Services, Inc. has a long history of providing vehicle maintenance services to many small to large fleets from our 20 branch locations in eight states. We understand fleet maintenance requirements well and the necessity to synchronize maintenance services with how your business operates. Clarke is also a Detroit Diesel, Mercedes, and Allison Transmission warranty service provider and parts distributor.

Over the next few weeks you will be contacted by your local Clarke and VehiCare® representative to discuss this change and answer any questions you may have.

VehiCare® and Clarke thank you for your business and we look forward to continuing to provide you "Best in Class" service and value.

Sincerely,

James A. Overstreet
President / CEO
